INDISCREET JEWELS

Indiscreet Jewels is a krautgoth/ mystic wave band based in Berlin.

The dense intricacy of electronic improvisations transforms into twinkling fluctuations of hypnotic grooves.

Psychedelic soundscapes of repetitive phrases disappear in erratic instants of sonic splashes and scattered overtones. Mysterious synths and uncanny voices are revealing the implicit acoustic milieu of otherworldly boudoirs and celestial sanctuaries.

The latest album *Castle of Liars* was released on Octubre.tv label.

FITZKARRALDO

The band was born from the meeting of James Anderson and Emanuele Calli in Berlin at the end of 2016. Riccardo Scaramagli joins the band in 2018. The result are insectile guitar riffs mixed with a nervous, sometimes tricky, sometimes raw rhythmic section, which mixes references to post-punk, noise-rock, math-rock, jazz-core, spaced-out music, some competitive patterns of classical music, without ever wanting to box itself inside a particular scene of belonging.
